SUMMARY

Product Designer with 2+ years of experience designing digital products and AI-enabled solutions across research, information architecture, interaction design, prototyping, testing, and delivery. Experienced in translating ambiguous product problems and stakeholder needs into structured user flows, prototypes, specifications, and scalable design solutions.

Combines UX research and product thinking with an Information Management background and AI-assisted workflows to improve decision-making, reduce rework, and help cross-functional teams move from discovery to implementation.

PROFESSIONAL EXPERIENCE

Product Designer | Bluevineyard

Remote, Australia Oct 2024 – Present

- Produced persona and journey-mapping research (13 personas) underpinning an AI-guided product's design, development, and evaluation frameworks, establishing the reference standard that design, engineering, and QA now build and test against.
- Built an AI-assisted UX workflow for a CRM replacement project: synthesized discovery-calls and PM research via NotebookLM, validated findings and structured prompts via Claude, then translated directly into Figma Make prototypes and a Miro documentation kit — reducing design rework and cutting research-to-handoff time by 70%.
- Led design QA and validation across 20+ projects, reducing post-launch issues by 15%; caught 5 critical defects in a final pre-launch review — after PM sign-off — that would otherwise have shipped a visible quality downgrade.
- Produced detailed UI specifications (states, edge cases, breakpoints, interaction logic), reducing sprint clarification cycles by 25%.
- Partnered with stakeholders and clients to define product requirements, cutting requirement-related revisions by 20%.
- Led design projects end-to-end, producing user flows, information architecture, and sitemaps that gave developers and UI designers a clear execution blueprint.

Digital Marketing Manager | Xown Solutions Limited

Lagos, Nigeria | Nov 2022 – Jul 2024

- Spearheaded digital media campaigns, increasing brand awareness by 30% and driving 15% growth in customer engagement.
- Improved website conversion rates by 25% through SEO, A/B testing, and content optimization, increasing lead capture and reducing bounce rates.
- Led email marketing initiatives, achieving a 40% increase in open rates and a 15% conversion rate through targeted segmentation and personalized content.
- Collaborated with design, development, and sales teams to align messaging with business goals.

Social Media Manager | Godangold

Port Harcourt, Nigeria May 2020 – Mar 2022

- Led social media content creation and strategy, resulting in a 50% increase in customer engagement and brand visibility.
- Analyzed social performance metrics and implemented data-driven adjustments, improving campaign effectiveness by 20%.
